

Feb 2026

Fund Prices as at the last price available on 31 Jan 2026

Access to these funds is only available through the Isle of Man product range.

**This leaflet is for information only and should not be considered as a financial promotion.
The information should not be relied upon for buying and selling decisions.**

The information shown refers to the past. Past performance is not a reliable guide to future performance. The value of an investment and any income from it is not guaranteed and can go up and down depending on investment performance and currency exchange rates.

This document is not available for distribution to the public in Hong Kong

The Mirror Funds

Friends Provident International Limited (Friends Provident International) operates an range of funds known as mirror funds. The concept is simple: agreements have been set up with investment houses worldwide allowing us to link to specially selected underlying funds chosen on the basis of performance and investment expertise. For each fund link we arrange with the investment houses, Friends Provident International has set up its own mirror fund which invests solely in the underlying fund, apart from a proportionately small amount which is usually held as a cash balance.

These mirror funds are intended for medium to long-term investment and can only be accessed using Friends Provident International's unit-linked investment plans. These plans are also intended for medium to long-term investment and are not therefore designed for early surrender (see **Product information** on the last page). There may also be restrictions on the amount of withdrawals available from a plan and you should refer to the relevant Principal Brochure for more information.

Our policyholders invest their premiums into unit-linked investment plans. According to policyholders' chosen mirror funds, we invest these premiums collectively in the underlying fund assets. Friends Provident International is the absolute legal and beneficial owner of all the assets which relate to each mirror fund. Policyholders have no rights or entitlements to these underlying assets. The price of the mirror funds will be different from the underlying fund, but should move broadly in line with it.

Units in the mirror funds are normally bought and sold using the 'bid' (selling) price. However, some legacy products do contain a bid/offer spread — please refer to the individual product brochures for details.

Please note that there are fees for mirror funds that would in turn affect the return on your policy.

Please refer to the corresponding prospectuses of the underlying funds, which will be made available by Friends Provident International's Isle of Man office. These prospectuses will help you to understand the mirror funds you choose and the corresponding underlying funds, their investment objectives and strategies, the risks that may affect your investment, whether your financial goals are matched, etc. Please do not rely on these documents alone. We recommend that you discuss fully both the suitability of the unit-linked investment plans and the specific risks associated with your investments within these plans with your Financial Adviser before making any investment decisions.

Risk Factors

Investment involves risk and each class of investment will involve its own individual level of risk:

- An investment in equity based funds entails risk, as individual stock prices can move up and down more dramatically than other forms of investment. Shares, when sold, may be worth less than their original cost and you may get back less than you paid in.
- Some funds invest in asset classes that are considered illiquid, in that sometimes they may not be so easy to sell. It should be recognised that an investment in a fund of this type may have liquidity constraints that may lead to delays in the sale of fund units.

- Where a fund invests in fixed interest securities the value can go up and down as interest rates change. For example, if interest rates rise, the value is likely to fall.
- Some funds invest in company bonds. High yielding bonds are usually lower grade. These carry an increased risk to both the income and capital value of the fund – for example, if the company issuing the bond has financial difficulties and stops trading.
- Some funds invest in a concentrated number of stocks and so are riskier than broader-based funds.
- Some funds invest in commodity markets and investment values can move up and down sharply depending on levels of speculation and supply and demand.
- Where a fund invests in emerging markets, investment values can move sharply down or up. These markets tend not to be so well regulated as developed markets and political unrest is more likely.
- Many funds can now use derivative instruments as an investment tool. A derivatives instrument normally forms a contract between two or more parties and, used in funds, derives its value based on the value of an underlying asset at a particular point in time. The main types of derivatives are futures, forwards, options and swaps, with these instruments generally being used to hedge (reduce) risk, but can also be used for speculative purposes (at increased risk). Losses can be greater than the money put into these instruments.
- Hedge funds and funds of hedge funds aim to produce returns superior to those of bonds and equities irrespective of market direction therefore profiting throughout the changing world economic cycles of Recession, Recovery, Boom and Slowdown. Because hedge funds have more flexibility in their investment strategies, often using derivatives instruments, they can carry the same risk as outlined above.
- Professional Investor funds are aimed at market professionals and consequently are subject to less regulation due to the experience of the intended recipient. The generally accepted definition of a professional investor is any person:
 - Whose ordinary business involves, whether for his own account or for the account of others, the acquisition or disposal of property of the same kind as the property of the fund; or
 - Whether individually or jointly with his spouse, has a net worth in excess of one million US Dollars or its equivalent in any other currency and that he consents to being treated as a Professional Investor. Friends Provident International Limited is classified as the Professional Investor and we operate internal funds to enable our policyholders to collectively access the underlying fund. Policyholders should fully understand the nature of these types of funds – professional fund status does not necessarily imply a high-risk fund.

Mirror fund prices may go up and down depending upon the underlying investment performance or, where investments held within a mirror fund are not denominated in the currency of that mirror fund, simply because of movements in currency exchange rates. Where we publish performance information, the figures are quoted net of annual fund charges. However, past performance should not be viewed as a reliable guide of future performance – the value of your investment cannot be guaranteed and you may get back less than you paid in.

Valuation frequency and availability of unit prices

Valuations are carried out on all business days in the UK as appropriate for the individual mirror fund. Unit prices are issued daily at approximately 5 p.m. (UK time). Please note that some underlying funds do not price on a daily basis – any affected mirror funds have been clearly marked in accordance with the fund notes in the table below.

Mirror fund price roundings

In pricing each mirror fund in the Friends Provident International mirror fund range, we may reasonably round any calculations by an adjustment of not more than 0.1%. All rounding adjustments will usually accrue to the benefit of the policyholders who invest in that mirror fund.

The maximum offer price and the minimum bid price are calculated each valuation day. The maximum offer price is rounded up to three decimal places and the minimum bid price is rounded down to three decimal places.

Notes

- A: Closed to new investors.
- B: Not available for new investment from Hong Kong Onshore designated policyholders.
- C: Not available for new investment from Hong Kong Offshore designated policyholders.
- D: Not available for new investment from Singapore policyholders.
- F: The underlying fund of this mirror fund is authorised by the Hong Kong Securities and Futures Commission (SFC) under the Code on Unit Trusts and Mutual Funds, but not authorised or regulated under the SFC Code on Real Estate Investment Trusts. Such authorisation does not imply official approval or recommendation.
- G: The fund has a liquidity warning due to the nature of the underlying assets. For information on any restrictions currently in force, please refer to the Fund Updates section of our website.
- J: Vanguard is a trademark of the Vanguard Group, Inc. and has been licensed for use by Friends Provident International. The FPI Vanguard mirror fund is not sponsored, endorsed, sold, or promoted by the Vanguard Group, Inc. and the Vanguard Group, Inc. makes no representation regarding the advisability of investing in the fund.
- R: Fund only available to Singapore policyholders.
- U: This mirror fund has been in existence for less than 1 year. You can refer to the performance of the underlying fund by accessing the underlying fund fact sheet for an indication of performance and this fact sheet is available on request. Please note this is for information only and is not an exact indication of the likely performance of the mirror fund and as such, should not be relied upon. Fund charges may differ between the underlying fund and mirror fund.
- V: Fund is classified as a Non Mainstream Pooled Investment by the UK Financial Conduct Authority and is not available for new investment by customers based in the UK with effect from 1 January 2014.
- W: There is a performance fee on the underlying fund of this fund, which is charged by the underlying fund manager and taken into account within the published unit price of the mirror fund. Please refer to the relevant section of the underlying fund's Prospectus for further information.
- X: Fund falls under the requirements of the European Union (EU) Alternative Investment Fund Manager Directive (AIFMD). As such, it is not available for (new) investment by EU or EEA investors with effect from 22 July 2014.
- Y: The underlying fund of this mirror fund is aimed at professional / sophisticated / experienced investors, who understand the specialist nature of the fund and its risks. Friends Provident International Limited is classified as a professional investor and we operate the mirror fund to enable customers to collectively access the underlying fund. Investors should refer to the underlying fund's Prospectus for full information before investing.
- Z: Fund not available to policyholders resident in Japan.

GUIDE TO THE RISK/REWARD PROFILE

Grade 1

Funds offering conservative return similar to money market rates.

Grade 2

Low risk funds offering security and potential growth.

Grade 3

These funds take a balanced approach to investment by holding a diverse portfolio of assets.

Grade 4

A more focused asset exposure provides good growth potential with the risk of short-term volatility.

Grade 5

These aggressive funds balance the risk of high volatility with the potential for high capital growth.

Product information

Friends Provident International's unit-linked investment plans are intended for medium to long-term investment and are not therefore designed for early surrender. If you do surrender early, a discontinuance charge will be applied. The earlier you terminate your plan, the more you may lose.

If you have invested in Reserve, or a similar personalised bond, and include these mirror funds in your portfolio of assets, please be aware that the Administration Charge of, currently, 1.2% of the bid value of each mirror fund each year, will be applied. This Charge is debited directly to the mirror fund on each valuation day.

Insurance contracts may not be suitable for everyone. We recommend that you read the Principal Brochure and all associated documents carefully and discuss fully both the suitability of these unit linked investment plans and the specific risks associated with your chosen investments within these plans with your Financial Adviser before making any investment decisions.

Policyholder protection

All policyholders will receive the protection of the Life Assurance (Compensation of Policyholders) Regulations 1991 of the Isle of Man, wherever their place of residence. The Regulations ensure that in the unlikely event of Friends Provident International Limited becoming insolvent, a levy would be made against all other Isle of Man resident life assurance companies so that up to 90% of our liabilities to eligible policyholders would be met (without any upper monetary limit).

Investors should be aware that specific investor protection and compensation schemes that may exist in relation to collective investments and deposits accounts are unlikely to apply in the event of failure of such an investment held within insurance contracts.

Complaints we cannot settle can be referred to the Financial Services Ombudsman Scheme for the Isle of Man.

Some telephone communications with the Company are recorded and may be randomly monitored or interrupted.

Each policy is governed by and shall be construed in accordance with the law of the Isle of Man. However, this will not preclude the right to bring legal action in a Hong Kong court. If you effect a policy whilst resident in the United Arab Emirates, all disputes regarding the policy shall be subject to the nonexclusive jurisdiction of the courts of the United Arab Emirates.
